

### **Territorial Change v4.0**

The following changes were made in the territorial change data set from version 3.0 to the present version 4.0:

1. Missing data for the month of the territorial change were filled in for 52 cases.
2. Missing data for the population of the territorial change were filled in for 15 cases.
3. The data were updated to include the 2001-2008 period and 7 cases of territorial change were added.
4. Two cases from the pre-2001 period were identified and added to the data set.

### **Territorial Change v4.01**

The following changes were made in the territorial change data set from version 4.0 to the present version 4.01:

1. Two African cases were corrected.
2. The missing values for the version variable were filled in.
